

Keeping My Family Safe

Preventing child sexual abuse

Preventing sexual abuse starts with caring adults taking responsibility for protecting children and youth. Know the important things you can communicate to your child, behaviors to watch out for and steps to take to keep children safe. Through lecture and group discussion, the presentation covers:

- how to communicate healthy sexual development
- the importance of teaching children the proper names for all body parts
- how to teach boundaries, privacy and consent
- behavioral warning signs in children, youth and adults
- ways to speak up during concerning situations
- creating a family safety plan
- resources on child development and sexual abuse
