This Holiday
Season

Give
the Gift of
Reading!

**The gift of reading is truly one of
the best gifts you can give a child.**

You can nurture the love of reading in children by having a collection of books at home kids want to read. A good selection of books at home motivates voluntary reading.

Every book added to a home library increases a child's chances for success. Children who read often develop higher-level thinking skills and stronger vocabularies. Nothing opens new worlds like a good book!

At our Holiday Book Fair, you'll find:

- A wonderful selection of kid favorites
- Educational activities
- 25% off selected Klutz® books
- Holiday picture books
- More for every age and interest!
