

Dear EBC Employee:

There's one thing that's certain about the flu: It's unpredictable. That's why we've teamed up with Walgreens this year and are encouraging all benefit eligible employees to protect themselves with a flu shot at Walgreens for \$0.00.* With this option, you can bring the whole family along. As an insurance eligible employee, the voucher will cover your flu shot. You can utilize your insurance plan for your family or pay out of pocket if they are not covered under the plan.

The Centers for Disease Control and Prevention recommends everyone over 6 months of age get a seasonal flu shot. It's quick, easy and simply your best protection against the flu this season. And this year, Walgreens will again continue its Get a Shot. Give a Shot.® campaign, in partnership with the United Nations Foundation and its Shot@Life program. For every flu shot or other vaccination administered at Walgreens, Healthcare Clinic or Duane Reade, Walgreens will make a donation that will help provide a lifesaving vaccine to a child in a developing country.†

So get your seasonal flu shot where and when it's most convenient for you. Walgreens administers flu shots daily at all of its locations—with no appointment necessary. You can also redeem your voucher at any Walgreens Healthcare Clinic at select locations or Duane Reade location. When you get your flu shot, present your photo ID with your voucher. Please consult your Walgreens pharmacist if you have any questions or concerns. To find the Walgreens nearest you, call 800-WALGREENS (800-925-4733) or visit Walgreens.com/FindAStore.

Sincerely,

EBC
