Educational Goals

The District's educational program will seek to provide an opportunity for each student to develop to his or her maximum potential. The objectives for the educational program are:

Student Growth

Support and implement activities that focus on effective instruction and enhance student growth.

Full Educational Opportunity

Implement activities that focus on educating each student in his/her home school and classroom where possible.

Personnel and Board Development

Promote professional development activities to support personnel within SPEED and personnel of member school districts.

Fiscal Responsibility

Provide supports and services that reflect fiscal responsibility.

District Interaction

Seeks ways to stimulate communication among the 15 member districts to promote the concept of inter-district agreements.

Instruction

District Calendar and Day

SPEED shall, as closely as possible, follow the calendars established by member districts. Staff working in classrooms housed in member districts shall follow that district's established calendar.

The District, upon the Superintendent's recommendation and subject to State regulations, when necessary, will establish the dates for teacher institutes and in-services, the length and dates of vacations, and the days designated as legal school holidays. The school calendar shall have a minimum of 185 days to ensure 176 days of actual student attendance.

Commemorative Holidays

The teachers and students shall devote a portion of the school day on each commemorative holiday designated in the School Code to study and honor the commemorated person or occasion.

School Day

The Operating Committee establishes the length of the school day with the recommendation of the Superintendent and subject to State law requirements.

Program and Curriculum Development

In order to provide instructional services for the special education students served in Member Districts, the Superintendent, in consultation with the Operating Committee, shall develop a plan of services. It shall be a plan that is educationally sound and that justifies itself in substantial benefits to the students served.

The plan shall ensure that Member Districts have available a full continuum of services.

The Superintendent shall develop a curriculum review program to monitor the current curriculum and promptly suggest changes to make the curriculum more effective, to take advantage of improved teaching methods and materials, and to be responsive to social change, technological developments, student needs, and community expectations.

School Wellness

Student wellness, including good nutrition and physical activity, shall be promoted in the District's educational program, school activities, and meal programs. This policy shall be interpreted consistently with Section 204 of the Child Nutrition and WIC Reauthorization Act of 2004 and the Healthy Hunger-Free Kids Act of 2010 (HHFKA). The Superintendent or designee will ensure each school building complies with this policy.

Goals for Nutrition Education and Nutrition Promotion

The goals for addressing nutrition education and nutrition promotion include the following:

- Schools will support and promote sound nutrition for students.
- Schools will foster the positive relationship between sound nutrition, physical activity, and the capacity of students to develop and learn.
- Nutrition education will be part of the District's comprehensive health education curriculum. See Board policy 6:60, *Curriculum Content*.

Goals for Physical Activity

The goals for addressing physical activity include the following:

- Schools will support and promote an active lifestyle for students.
- Physical education will be taught in all grades and shall include a developmentally planned and sequential curriculum that fosters the development of movement skills, enhances health-related fitness, increases students' knowledge, offers direct opportunities to learn how to work cooperatively in a group setting, and encourages healthy habits and attitudes for a healthy lifestyle.
- During the school day, all students will be required to engage in a daily physical education course, unless otherwise exempted.
- The curriculum will be consistent with and incorporate relevant Illinois Learning Standards for Physical Development and Health as established by the Illinois State Board of Education.

Nutrition Guidelines for Foods Available During the School Day

Students will be offered and schools will promote nutritious food and beverage choices consistent with the current *Dietary Guidelines for Americans* published jointly by the U.S. Departments of Health and Human Services and Agriculture (USDA). In addition, in order to promote student health and reduce childhood obesity, the Superintendent or designee shall restrict the sale of *competitive foods*, as defined by the USDA, in the food service areas during meal periods and comply with all ISBE rules.

Exempted Fundraising Day (EFD) Requests

All food and beverages sold to students on the school campuses of participating schools during the school day must comply with the "general nutrition standards for competitive foods" specified in federal law, unless the Director or designee in a participating school has granted an exempted fundraising day (EFD). To request an EFD and learn more about the District's related procedure(s), contact the Director or designee. The District's procedures are subject to change. The number of EFDs is set by ISBE rule.

Guidelines for Reimbursable School Meals

Reimbursable school meals served shall meet, at a minimum, the nutrition requirements and regulations for the National School Lunch Program and/or School Breakfast Program.

Monitoring

The Superintendent or designee shall annually provide implementation data and/or reports to the Board concerning this policy's implementation sufficient to allow the Board to monitor and adjust the policy. This report must include without limitation each of the following:

- An assessment of the District's implementation of the policy
- The extent to which schools in the District are in compliance with the policy
- The extent to which the policy compares to model local school wellness policies
- A description of the progress made in attaining the goals of the policy

Community Input

The Superintendent or designee will actively invite suggestions and comments concerning the development, implementation, and improvement of the school wellness policy from parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and community.

Student Social and Emotional Development

Social and emotional learning (SEL) is defined as the process through which students enhance their ability to integrate thinking, feeling, and behaving to achieve important life tasks. Students competent in SEL are able to recognize and manage their emotions, establish healthy relationships, set positive goals, meet personal and social needs, and make responsible and ethical decisions.

The Superintendent shall incorporate SEL into the District's curriculum and other educational programs consistent with the District's mission and the goals and benchmarks of the Ill. Learning Standards. The Ill. Learning Standards include three goals for students:

1. Develop self-awareness and self-management skills to achieve school and life success.
2. Use social-awareness and interpersonal skills to establish and maintain positive relationships.
3. Demonstrate decision-making skills and responsible behaviors in personal, school, and community contexts.

The incorporation of SEL objectives into the District's curriculum and other educational programs may include but is not limited to:

1. Classroom and school-wide programming to foster a safe, supportive learning environment where students feel respected and valued. This may include incorporating scientifically based, age-and-culturally appropriate classroom instruction, District-wide, and school-wide strategies that teach SEL skills, promote optimal mental health, and prevent risk behaviors for all students.
2. Staff development and training to promote students' SEL development. This may include providing all personnel with age-appropriate academic and SEL and how to promote it.
3. Parent/Guardian and family involvement to promote students' SEL development. This may include providing parents/guardians and families with learning opportunities related to the importance of their children's optimal SEL development and ways to enhance it.
4. Community partnerships to promote students' SEL development. This may include establishing partnerships with diverse community agencies and organizations to assure a coordinated approach to addressing children's mental health and SEL development.
5. Early identification and intervention to enhance students' school readiness, academic success, and use of good citizenship skills. This may include development of a system and procedures for periodic and universal screening, assessment, and early intervention for students who have significant risk factors for social, emotional, or mental health conditions that impact learning.
6. Treatment to prevent or minimize mental health conditions in students. This may include building and strengthening referral and follow-up procedures for providing effective clinical services for students with social, emotional, and mental health conditions that impact learning. This may include student and family support services, school-based behavioral health services, and school-community linked services and supports.
7. Assessment and accountability for teaching SEL skills to all students. This may include implementation of a process to assess and report baseline information and ongoing progress

about school climate, students' social and emotional development, and academic performance.

Teaching About Controversial Issues

The Superintendent shall ensure that all school-sponsored presentations and discussions of controversial or sensitive topics in the instructional program, including those made by guest speakers, are:

- Age-appropriate. Proper decorum, considering the students' ages, should be followed.
- Consistent with the curriculum and serve an educational purpose.
- Informative and present a balanced view.
- Respectful of the rights and opinions of everyone. Emotional criticisms and hurtful sarcasm should be avoided.
- Not tolerant of profanity or slander. Disruptive conduct is prohibited and may subject a student to discipline.

The District specifically reserves its right to stop any school-sponsored activity that it determines violates this policy, is harmful to the District or the students, or violates State or federal law.

Programs for Students At Risk of Academic Failure and/or Dropping Out of School and Graduation Incentives Program

The Superintendent or designee shall develop, maintain, and supervise a program for students at risk of academic failure or dropping out of school. The program shall include education and support services addressing individual learning styles, career development, and social needs, and may include without limitation one or more of the following:

- Parent-teacher conferences
- Counseling services by social workers and/or guidance counselors
- Counseling services by psychologists
- Psychological testing
- Community agency services
- Alternative learning opportunities program
- Graduation incentives program
- Remediation program

Any student who is below the age of 20 years is eligible to enroll in a graduation incentives program if he or she:

1. Is considered a dropout according to State law;
2. Has been suspended or expelled;
3. Is pregnant or is a parent;
4. Has been assessed as chemically dependent; or
5. Is enrolled in a bilingual education or English Language Learners program.

Education of Children with Disabilities

SPEED shall provide a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the District, as required by the Individuals With Disabilities Education Act (IDEA) and implementing provisions of the School Code, Section 504 of the Rehabilitation Act of 1973, and the Americans With Disabilities Act. The term “children with disabilities,” as used in this policy, means children between ages 3 and 21 (inclusive) for whom it is determined, through definitions and procedures described in the Illinois State Board of Education’s *Special Education* rules, that special education services are needed.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the Illinois State Board of Education’s *Special Education* rules. This system shall include notice, an opportunity for the student’s parent(s)/guardian(s) to examine relevant records, an impartial hearing with opportunity for participation by the student’s parent(s)/guardian(s), representation by counsel, and a review procedure.

If necessary, students may also be placed in nonpublic special education programs or education facilities.

Use of Isolated Time Out and Physical Restraint

Isolated time out and physical restraint as defined below shall be used only as a means of maintaining discipline in schools (that is, as a means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment.

Isolated Time Out

“Isolated time out” means the confinement of a student in a time-out room or some other enclosure, whether within or outside the classroom, from which the student’s egress is restricted.

The use of isolated time out shall meet the requirements of the Illinois State Board of Education rules pertaining to use of isolated time out and physical restraint (23Ill.Admin.Code 1.285). By way of example, considerations include: enclosure ceiling height, size and dimensions; construction materials and potential hazards; door construction, including locking mechanism; visual monitoring and communication capabilities and proximity of adult supervision. A student shall not be kept in isolated time out for more than 30 minutes after he or she ceases presenting the specific behavior for which isolated time out was imposed or any other behavior for which it would be an appropriate intervention.

Physical Restraint

“Physical restraint” means holding a student or otherwise restricting his or her movements. “Restraint” does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and that are designed (i) to prevent a student from completing an act that would result in potential physical harm to himself, herself, or another, or damage to property or (ii) to remove a disruptive student who is unwilling to voluntarily leave the area.

Physical restraint may only be employed when: (i) the student poses a physical risk to himself, herself, or others, (ii) there is no medical contraindication to its use, and (iii) the staff applying the restraint have been trained in its safe application. Students shall not be subjected to physical restraint for using profanity or other verbal display of disrespect for themselves or others. A verbal threat shall not be considered as constituting a physical danger unless a student also demonstrates a mean of or intent to carry out the threat. Any application of physical restraint shall take into consideration the safety and security of the student. Further, physical restraint shall not rely upon pain as an intentional method of control. In determining whether a student who is being physically restrained should be removed from the area where such restraint was initiated, the supervising adult(s) shall consider the potential for injury to the student, the student’s need for privacy, and the educational and emotional well-being of other students in the vicinity. A student shall be released from physical restraint immediately upon a determination by the staff member administering the restraint that the student is no longer in imminent danger of causing physical harm to himself, herself, or others.

Whenever physical restraints are used, school personnel shall fully document the incident, including the events leading up to the incident, the type of restraint used, the length of time the student is restrained, and the staff involved. The parents or guardian of a student shall be informed whenever physical restraints are used.

The following shall also apply in the use of isolated time out and physical restraint:

- a. The ISBE rules are adopted as SPEED's written procedure to be followed by personnel in the use of isolated time out or physical restraint. (See ISBE rules, §§1.280, 1.285)
- b. The Building Principal is the school official who will be informed of incidents and maintain the required documentation when isolated time out or physical restraint is used. (See ISBE rules §§1.280, 1.285)
- c. The Building Principal will investigate and evaluate any incident that results in an injury that the affected student (or the responsible parent or guardian), staff member, or other individual identifies as serious.
- d. The Building Principal will put together a description of the alternative strategies that will be implemented when determined advisable pursuant to §1.285(f)(4) of the ISBE rules.
- e. The Building Principal or designee shall prepare and maintain in annual review format a description of the use of isolated time out or physical restraint in SPEED programs. This annual review shall include:
 1. the number of incidents involving the use of isolated time out or physical restraint;
 2. the location and duration of each incident;
 3. the identification of the staff members who were involved;
 4. any injuries or property damage that has occurred;
 5. the timelines of parental notification and administrative review.

Education of Homeless Children

Each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education as provided to other children and youths, including a public pre-school education. A *homeless child* is defined as provided in the McKinney Homeless Assistance Act and the Ill. Education for Homeless Children Act.

A homeless child may attend a school operated by SPEED if: (a) the child currently lives in any member district's school attendance area; or (b) the child when permanently housed resided in a member district or was enrolled in a member district's school.

Instructional Materials

All District classrooms and learning centers should be equipped with an evenly-proportioned, wide assortment of instructional materials, including textbooks, workbooks, audio-visual materials, and electronic materials. These materials should provide quality learning experiences for students and:

1. Enrich and support the curriculum;
2. Stimulate growth in knowledge, literary appreciation, aesthetic values, and ethical standards;
3. Provide background information to enable students to make informed judgments and promote critical reading and thinking;
4. Depict in an accurate and unbiased way the cultural diversity and pluralistic nature of American society; and
5. Contribute to a sense of the worth of all people regardless of sex, race, religion, nationality, ethnic origin, sexual orientation, disability, or any other differences that may exist.

The Superintendent or designee shall annually provide a list or description of textbooks and instructional materials used in the District to the Governing Board. Anyone may inspect any textbook or instructional material.

Teachers are encouraged to use supplemental material only when it will enhance, or otherwise illustrate, the subjects being taught and to ensure it is age-appropriate. No movie above the G rating may be shown in grades 3 or below unless prior approval is received from the Superintendent or designee. No movie above the PG rating shall be shown in grades 4-8 without prior approval. At the high school, movies with a PG-13 rating may be shown. No R-rated movie or movie rated NC-17 (no one under 17 admitted) shall be shown under any circumstances. These restrictions apply to television programs and other media with equivalent ratings. The Superintendent or designee shall give parents/guardians an opportunity to request that their child not participate in a class showing a movie, television program, or other media.

Instructional Materials Selection and Adoption

The Superintendent shall recommend to the Board for consideration and adoption all textbooks and instructional materials and shall include the following information: (1) title, publisher, copyright dates, number of copies desired, and cost; (2) any texts being replaced; and (3) rationale for recommendation. The School Code governs the adoption and purchase of textbooks and instructional materials.

Library Media Program

The Superintendent or designee shall manage the District's library media program to comply with, (1) State law and Illinois State Board of Education rule, and (2) the following standards:

1. The program includes an organized collection of resources available to students and staff to supplement classroom instruction, foster reading for pleasure, enhance information literacy, and support research, as appropriate to students of all abilities in the grade levels served.
2. Financial resources for the program's resources and supplies are allocated to meet students' needs.
3. Students in all grades served have equitable access to library media resources.
4. The advice of an individual who is qualified according to ISBE rule is sought regarding the overall direction of the program, including the selection and organization of materials, provision of instruction in information and technology literacy, and structuring the work of library paraprofessionals.
5. Staff members are invited to recommend additions to the collection.
6. Students may freely select resource center materials as well as receive guided selection of materials appropriate to specific, planned learning experiences.

Access to Electronic Networks

Electronic networks, including the Internet, are a part of the District's instructional program and serve to promote educational excellence by facilitating resource sharing, innovation, and communication. The Superintendent shall develop an implementation plan for this policy and appoint system administrator(s).

The District is not responsible for any information that may be lost or damaged, or become unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the District will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

Curriculum and Appropriate Online Behavior

The use of the District's electronic networks shall: (1) be consistent with the curriculum adopted by the District as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library resource center materials. As required by federal law, students will be educated about appropriate online behavior, including but not limited to: (1) interacting with other individuals on social networking websites and in chat rooms, and (2) cyberbullying awareness and response. Staff members may, consistent with the Superintendent's implementation plan, use the Internet throughout the curriculum.

The District's electronic network is part of the curriculum and is not a public forum for general use.

Acceptable Use

All use of the District's electronic networks must be: (1) in support of education and/or research, and be in furtherance of the goals stated herein, or (2) for a legitimate school business purpose. Use is a privilege, not a right. Students and staff members have no expectation of privacy in any material that is stored, transmitted, or received via the District's electronic networks or District computers. General rules for behavior and communications apply when using electronic networks. The District's *Authorization for Electronic Network Access* contains the appropriate uses, ethics, and protocol. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

Internet Safety

Technology protection measures shall be used on each District computer with Internet access. They shall include a filtering device that protects against Internet access by both adults and minors to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by federal law and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. The Superintendent or designee shall include measures in this policy's implementation plan to address the following:

1. Ensure staff supervision of student access to online electronic networks,
2. Restrict student access to inappropriate matter as well as restricting access to harmful materials,
3. Ensure student and staff privacy, safety, and security when using electronic communications,
4. Restrict unauthorized access, including "hacking" and other unlawful activities, and

5. Restrict unauthorized disclosure, use, and dissemination of personal identification information, such as, names and addresses.

Authorization for Electronic Network Access

Each staff member must sign the District's *Authorization for Electronic Network Access* as a condition for using the District's electronic network. Each student and his or her parent(s)/guardian(s) must sign the *Authorization* before being granted unsupervised use.

All users of the District's computers to access the Internet shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential student information is loaded onto the network.

The failure of any student or staff member to follow the terms of the *Authorization for Electronic Network Access*, or this policy, will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

Exhibit - Student Authorization for Access to the District's Electronic Networks

This form accompanies Administrative Procedure 6:235-AP1, Acceptable Use of the District's Electronic Networks. It must be signed when students will have unsupervised Internet access or when supervision will be minimal. Please submit this form to the Building Principal.

Dear Parents/Guardians:

Our School District has the ability to enhance your child's education through the use of electronic networks, including the Internet. Our goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation, and communication. Students and their parents/guardians need only sign this *Authorization for Access to the District's Electronic Networks* once while the student is enrolled in the School District.

The District *filters* access to materials that may be defamatory, inaccurate, offensive, or otherwise inappropriate in the school setting. If a filter has been disabled or malfunctions it is impossible to control all material and a user may discover inappropriate material. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child or ward should follow, and the School District respects each family's right to decide whether or not to authorize Internet access.

With this educational opportunity also comes responsibility. The use of inappropriate material or language, or violation of copyright laws, may result in the loss of the privilege to use this resource. Remember that you are legally responsible for your child's actions. If you agree to allow your child to have a network account, sign the *Authorization* form below and return it to your school.

Authorization for Access to the District's Electronic Networks Form

Students must have a parent/guardian read and agree to the following before being granted unsupervised access:

All use of the Internet shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. **The failure of any user to follow the terms of the *Acceptable Use of the District's Electronic Networks* will result in the loss of privileges, disciplinary action, and/or appropriate legal action.** The signatures at the end of this document are legally binding and indicate the parties who signed have read the terms and conditions carefully and understand their significance.

I have read this *Authorization* form. I understand that access is designed for educational purposes and that the District has taken precautions to eliminate controversial material. However, I also recognize it is impossible for the District to restrict access to all controversial and inappropriate materials. I will hold harmless the District, its employees, agents, or Board members, for any harm caused by materials or software obtained via the network. I accept full responsibility for supervision if and when my child's use is not in a school setting. I have discussed the *Acceptable Use of the District's Electronic Networks* with my child. I hereby request that my child be allowed access to the District's electronic networks, including the Internet.

Students must also read and agree to the following before being granted unsupervised access:

I understand and will abide by the *Acceptable Use of the District's Electronic Networks*. I understand that the District and/or its agents may access and monitor my use of the Internet, including my email and downloaded material, without prior notice to me. I further understand that should I commit any violation, my access privileges may be revoked, and school disciplinary action and/or legal action may be taken. In consideration for using the District's electronic network connection and having access to public networks, I hereby release the School District and its Board members, employees, and agents from any claims and damages arising from my use of, or inability to use the District's electronic networks, including the Internet.

Field Trips

Field trips are permissible when the experiences are a part of the school curriculum and/or contribute to the District's educational objectives.

All field trips must have the Superintendent or designee's prior approval, except that field trips beyond a 200-mile radius of the school or extending overnight must have the prior approval of the Governing Board. The Superintendent or designee shall analyze the following factors to determine whether to approve a field trip: educational value, student safety, parent concerns, heightened security alerts, and liability concerns. On all field trips, a bus fee set by the Superintendent or designee may be charged to help defray the transportation costs.

Parents/guardians of students: (1) shall be given the opportunity to consent to their child's participation in any field trip, and (2) are responsible for all entrance fees, food, lodging, or other costs, except that the District will pay such costs for students who qualify for free or reduced school lunches. All non-participating students shall be provided an alternative experience. Any field trip may be cancelled without notice due to an unforeseen event or condition.

Privately arranged trips, including those led by District staff members, shall not be represented as or construed to be sponsored by the District or school. The District does not provide liability protection for privately arranged trips and is not responsible for any damages arising from them.

Community Resource Persons and Volunteers

The Governing Board encourages the use of resource persons and volunteers to: (1) increase students' educational attainment, (2) provide enrichment experiences for students, (3) increase the effective utilization of staff time and skills, (4) give more individual attention to students, and (5) promote greater community involvement.

Resource persons and volunteers may be used:

1. For non-teaching duties not requiring instructional judgment or evaluation of students;
2. To assist with academic programs under a certificated teacher's immediate supervision;
3. As a guest lecturer or resource person under a certificated teacher's direction and with the administration's approval; or
4. As supervisors, chaperones, or sponsors for non-academic school activities.

The Superintendent shall establish procedures for securing and screening resource persons and volunteers. A person who is a "sex offender," as defined by the Sex Offender Registration Act, or a "violent offender against youth," as defined in the Child Murderer and Violent Offender Against Youth Registration Act, or has otherwise been convicted of a felony, is prohibited from being a resource person or volunteer. All volunteer coaches must comply with the requirement to report hazing in policy 5:90, *Abused and Neglected Child Reporting*.

Grading and Promotion

The Superintendent shall establish a system of grading and reporting academic achievement to students and their parents/guardians. The system shall also determine when promotion and graduation requirements are met.

Every teacher shall maintain an evaluation record for each student in the teacher's classroom. A District administrator cannot change the final grade assigned by the teacher without notifying the teacher. Reasons for changing a student's final grade include:

- A miscalculation of test scores,
- A technical error in assigning a particular grade or score,
- The teacher agrees to allow the student to do extra work that may impact the grade,
- An inappropriate grading system used to determine the grade, or
- An inappropriate grade based on an appropriate grading system.

Should a grade change be made, the administrator making the change must sign the changed record.

Homework

Homework is part of the District's instructional program and has the overarching goal of increasing student achievement. Homework is assigned to further a student's educational development and is an application or adaptation of a classroom experience. The Superintendent shall provide guidance to ensure that homework:

1. Is used to reinforce and apply previously covered concepts, principles, and skills;
2. Is not assigned for disciplinary purposes;
3. Serves as a communication link between the school and parents/guardians;
4. Encourages independent thought, self-direction, and self-discipline; and
5. Is of appropriate frequency and length, and does not become excessive, according to the teacher's best professional judgment.

Recognizing the importance of parental involvement in homework, the Superintendent or designee shall ensure that parents/guardians are informed of, (1) whom to contact with questions or concerns about homework assignments, and (2) methods to facilitate homework completion.

Graduation Requirements

To graduate from high school, unless otherwise exempted, each student is responsible for:

1. Completing all home District graduation requirements that are in addition to the State requirements.
2. Completing all courses as provided in the School Code, 105 ILCS 5/27-22.
3. Completing all minimum requirements for graduation as specified by Illinois State Board of Education rule, 23 Ill.Admin.Code §1.440.
4. Passing an examination on patriotism and principles of representative government, proper use of the flag, methods of voting, and the Pledge of Allegiance.
5. Participating in State assessments that are required for graduation by the School Code, 105 ILCS 5/2-3.64a-5, unless the student is exempt.

The Superintendent or designee is responsible for:

1. Maintaining a description of all course offerings that comply with the above graduation requirements.
2. Notifying students and their parents/guardians of graduation requirements.
3. Developing the criteria for #4 above.
4. Taking all other actions to implement this policy.

Certificate of Completion

A student with a disability who has an Individualized Education Program prescribing special education, transition planning, transition services, or related services beyond the student's 4 years of high school, qualifies for a certificate of completion after the student has completed 4 years of high school. The student is encouraged to participate in the graduation ceremony of his or her high school graduation class. The Superintendent or designee shall provide timely written notice of this requirement to children with disabilities and their parents/guardians.

High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students

Credit for Non-District Experiences

A student may receive high school credit for successfully completing any of the listed courses or experiences even when it is not offered in or sponsored by the District, as approved by their home District:

1. Distance learning course, including a correspondence, virtual, or online course
2. Courses in an accredited foreign exchange program
3. Summer school or community college courses
4. College courses offering dual credit courses at both the college and high school level
5. Foreign language courses taken in an ethnic school program approved by the Illinois State Board of Education
6. Work-related training at manufacturing facilities or agencies in a Youth Apprenticeship Vocational Education Program (Tech Prep)
7. Credit earned in a Vocational Academy

The student must seek approval from the Superintendent of their home District or designee to receive graduation credit for any non-District course or experience. The Superintendent or designee shall determine the amount of credit and whether a proficiency examination is required before the credit is awarded. As approval is not guaranteed, students should seek conditional approval of the experience before participating in a non-District course or experience. The student assumes responsibility for any fee, tuition, supply, or other expense. The student seeking credit is responsible for (1) providing documents or transcripts that demonstrate successful completion of the experience, and (2) taking a proficiency examination, if requested. The Superintendent or designee shall determine which, if any, non-District courses or experiences, will count toward a student's grade point average, class rank, and eligibility for athletic and extracurricular activities. This section does not govern the transfer of credits for students transferring into the District.

Substitutions for Required Courses

Vocational or technical education. A student in grades 9-12 may satisfy one or more high school courses (including physical education) or graduation requirements by successfully completing related vocational or technical education courses if:

1. The Building Principal approves the substitution and the vocational or technical education course is completely described in curriculum material along with its relationship to the required course; and
2. The student's parent/guardian requests and approves the substitution in writing on forms provided by the District.

Advanced placement computer science. The advanced placement computer science course is equivalent to a high school mathematics course. A student in grades 9-12 may substitute the advanced placement computer science course for one year of mathematics, in accordance with Section 27-22 of

the School Code. The transcript of a student who completes the advanced placement computer science course will state that it qualifies as a mathematics-based, quantitative course, as approved by home district policy.

Substitutions for physical education. A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated below. The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances, as appropriate.

1. Enrollment in a marching band program for credit;
2. Enrollment in Reserve Officer's Training Corps (ROTC) program sponsored by the District;
3. Ongoing participation in an interscholastic athletic program (student must be in the 11th or 12th grade);
4. Enrollment in academic classes that are required for admission to an institution of higher learning (student must be in the 11th or 12th grade); or
5. Enrollment in academic classes that are required for graduation from high school, provided that failure to take such classes will result in the student being unable to graduate (student must be in the 11th or 12th grade).

A student requiring adapted physical education must receive that service in accordance with his or her Individualized Educational Program/Plan (IEP).

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student's participation as required by the Superintendent or designee.

Volunteer service credit. A student participating in the District's Volunteer Service Credit Program, if any, may earn credit toward graduation for the performance of community service. The amount of credit given for program participation shall not exceed that given for completion of one semester of language arts, math, science, or social studies.

Re-Entering Students

Individuals younger than 21 years of age may re-enter high school to acquire a high school diploma or an equivalency certificate, subject to the limitations in Board policy 7:50, *School Admissions and Student Transfers To and From Non-District Schools*. Re-entering students may obtain credit through the successful completion of the following (not all of these may be available at any one time):

1. District courses
2. Non-District experiences described in this policy
3. Classes in a program established under Section 10-22.20 of the School Code, in accordance with the standards established by the Illinois Community College Board
4. Proficiency testing, correspondence courses, life experiences, and other nonformal educational endeavors

5. Military service, provided the individual making the request has a recommendation from the U.S. Commission of Accreditation of Service Experiences

The provisions in the section **Credit for Non-District Experiences**, above, apply to the receipt of credit for any non-District course.

High School Credit for Proficiency

Proficiency Credits

Subject to the limitations in this policy and State law, the Superintendent is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

Proficiency credit will be offered in the following subject areas:

Foreign language - A student is eligible to receive one year of foreign language credit if the student has graduated from an accredited elementary school and can demonstrate proficiency, according to this District's academic criteria, in a language other than English. A student who demonstrates proficiency in American Sign Language is deemed proficient in a foreign language and will receive one year of foreign language credit. A student who studied a foreign language in an approved ethnic school program is eligible to receive appropriate credit according to the level of proficiency reached; the student may be required to take a proficiency examination.

Other proficiency testing - The program for granting credit for proficiency may allow, as the Superintendent deems appropriate, course credit to be awarded on the basis of a local examination to a student who has achieved the necessary proficiency through independent study or work taken in or through another institution. Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program.

Student Testing and Assessment Program

The District student assessment program provides information for determining individual student achievement and instructional needs; curriculum and instruction effectiveness; and school performance measured against District student learning objectives and statewide norms.

The Superintendent or designee shall manage the student assessment program that, at a minimum:

1. Administers the State assessment system, known as the *Partnership for Assessment of Readiness for College and Careers* (PARCC), to all students and/or any other appropriate assessment methods and instruments, including norm and criterion-referenced achievement tests, aptitude tests, proficiency tests, and teacher-developed tests.
2. Informs students of the timelines and procedures applicable to their participation in every State assessment.
3. Provides each student's parents/guardians with the results or scores of each State assessment. See policy 6:280, *Grading and Promotion*.
4. Utilizes professional testing practices.

Overall student assessment data on tests required by State law will be aggregated by the District. Board policy 7:340, *Student Records*, and its implementing procedures govern recordkeeping and access issues.
