Subject: Virtual speech

Good morning,
Chromebooks and headsets were dropped off on your desks Friday that are designated for virtual speech therapy for your students.

Login info for the chromebooks is:
username: elc.speech@speed802.org
password: Articulation@2022

There will be a link bookmarked (meetme.linkupteletherapy.com) that you go to for speech, the login to that site will be saved but is the same login info as signing into the chromebook (elc.speech@speed802.org / Articulation@2022)

Once logged into the site, you click "Join a Classroom" and then select the therapist from the dropdown menu that your student is scheduled to work with at that time; then it will launch into a zoom session.

Thanks,
Jane
